

# Royal Vendors

## Merlin IV Plus HVV Style Vendor

### ADA Compliant!

#### *More Than Just Good Looks.*

- Highly reliable 24 volt direct-drive delivery system.
- Package flexibility without shims, adjustments, and kits for most packages.

#### *Best Space to Sales Detail.*

- 12 columns for 650 and 768 models versus 10 on other venders provides better space-to-sales management and increases profitability

#### *Product Delivery Sensor.*

- Highly reliable across the wide spectrum of today's products and packages

#### *Energy Efficient.*

- Econocool refrigeration system
- ENERGY STAR® Tier 3 compliant, allowing even further energy savings
- Optional LED lighting decreases energy consumption and increases lighting system life

#### *Did you know?*

- Merlin IV machines have vended over 9 billion soft drinks
- This vendor is 99% recyclable

### ***Innovation.***

Royal Vendors has a rich heritage of pioneering industry innovations. Examples include the introduction of the Econo-cool Refrigeration System, the first vending company to be Energy Star approved, and other innovations that ensure you are partnering with a company that is committed to making your business better.

### ***Service.***

Each vender is backed by respected industry leaders and a dedicated support team, many with more than 20 years' experience in the soft drink field. Ours is a "people" advantage: unparalleled depth of technical knowledge; a thorough understanding of customers' needs; and a desire to foster long-term client partnerships.

### ***Quality.***

Above all, Royal Vendors is committed to providing a superior product. We insist on tight quality control standards, and consistently maintain ISO registration.

### ***Environmental Responsibility.***

Royal Vendors has had a formal environmental policy for the last 15 years. Innovations such as energy management software, low-power lighting, and minimizing waste streams are all part of the Royal culture. When you partner with Royal, you are doing business with a company that has won the Energy Star award for technical innovation and we are committed to continuing our efforts to minimize the environmental impact of our equipment.
